This is War!

Author's Notes:

Sorry this is just a drabble but I hope the content makes up for it. Merry Ficmas!

Henjo barely had enough time to duck before the ball soared through the air. He laughed, launching his own mound of snow at his partner.

Kai wasn't as quick, and he fell backwards when the snow hit him square in the forehead.

Henjo frowned when he didn't move for some time. Worried, he ran over to him, falling to his knees beside the fallen redhead.

"Kai?" Henjo shook him. "Kai?"

He leaned forward to closer inspect him, he yelped and fell to the side when a gloved hand shoved snow in his face.

"Mother*fuck*!"

Kai giggled maniacally.
